

You're invited to further your dental implant knowledge by attending the Modern Implant Institute Study Club.

Come and participate in the Modern Implant Institute Study Club. You will be introduced to cases and topics that will improve your dental implant knowledge. These presentations will alternate between prosthetic and surgical topics, and will address issues and concepts that clinicians face daily.

The MII Study Club meets every other month, on even months. These meetings will eventually take place in an in person setting, but will continue with an online format, until further notice. Participants are encourage to bring a case they would like to have reviewed and discussed by the speaker and other participants. Instructions to have your case reviewed can be found on our website, under the "Study Club" tab. Reserve your spot today, as participation size is limited.

Mini One-Piece Implants

Wednesday, February 16, 6-9 pm, 3 CE

Online Webinar—Registration Required

Presented by Joseph Kim, DDS, JD

Implants have offered patients excellent tooth replacement and functional options. Due to space, time, or financial limitations, however, some patients are not able to receive standard diameter implants. A proven solution to these situations is miniature, one-piece dental implants. We will discuss the benefits and limitations associated with mini, one-piece implants, including critical technique variations to optimize successful outcomes. Join us to find out how these narrow implants can find a place in your practice.
